

Like every two years, the sediment research and management community will meet for a week of science, technology, communication and culture in a different region of the World. For 2018, the symposium organizers and permanent committee calls this community to unite in San Cristobal de las Casas, in Chiapas, Mexico.

ACCOMODATION

The symposium and all events will be held in San Cristobal de las Casas, Chiapas, Mexico.

CONTACTS

For enquiries about the scientific program, abstract, paper submission and registration, please contact:

Webpage: i2sm2018.imta.mx

TOPICS

The I2SM 2018 is programmed for June 17 to 22, 2018 and will cover important topics in the field of sediment science and engineering:

- Geochemistry at the sediment-water interface
- Remediation of contaminated sites: natural attenuation, processing, and reuse
- Characterization and monitoring of sediments and porous media
- Sediment-driven reactions and transport of pollutants in rivers and groundwater
- Hydraulic works and water-sediment interactions
- Sediments: The lack in Mexican environmental regulation
- Reuse and management of sludge from water and wastewater treatment
- Perspectives from the private industry
- Advances in sediment management in tropical and subtropical environments: Studies in Latin America
- Age dating of sediments
- Emerging pollutants in sediments
- Contamination of sediments by oil spills: current situation, management strategies and regulations

IMPORTANT DATES

We look forward to welcoming you in San Cristobal de las Casas, Chiapas. Please note the following schedule:

Schedule

- Opening on the website to submit abstracts: July 1, 2017
- Deadline for abstracts submission: September 1, 2017
- Confirmation of acceptance of abstracts: November 15, 2017
- Opening on the website to submit extended abstracts: December 1, 2017
- Opening on the website for payment: January 20, 2018
- Deadline for extended abstracts submission: March 15, 2018
- Deadline for early registration: March 23, 2018
